💼 Professional Summary

Software Engineer with a solid background in full-stack development, currently focused on back-end with Java, payment APIs, and scalable architecture. Hands-on experience with Java (Spring Boot), .NET 8, and Node.js in critical domains such as healthcare, social security, and POS systems. Strong track record in legacy system modernization, REST API development, financial integrations, and cloud solutions. Proven experience with mobile deployments, microservices, and external API consumption.

💻 Professional Experience

GEAP – Mid-Level Full-Stack Developer
Jan/2025 – Present

- Back-end development using .NET 8 and SQL Server (procedures and performance tuning)
- Created modern interfaces with Vue.js + Quasar
- Migrated legacy ASPX systems to modern .NET platforms
- Integrated with Azure services for scalable and secure solutions
- Supported systems serving over 347,000 public health beneficiaries

PREVIC – Back-End Developer
Mar/2023 – Mar/2024

- Built solutions using Java (Spring Boot) and Node.js
- Implemented and maintained institutional Design System using React and TypeScript
- Worked on Project CAND, focused on legacy system modernization and increased efficiency

ATP Tecnologia – Android & Web Developer
Mar/2024 – Jul/2024

- Developed two native Android apps using Kotlin and Java, integrating POS payment APIs (VERO and Mercado Livre)
- Deployed and published to proprietary device stores
- Built a web widget with React.js and AWS
- Implemented new commercial website interface optimized for scalability and performance

MOBLIX – Mid-Level Front-End Developer
Jul/2024 – Oct/2024

- Production fixes and improvements using Vue 2
- Developed custom templates for 20,000 users
- Integrated with Node.js and performed back-end adjustments using ASP.NET (C#)

Green Corporate – Web & Mobile Developer
Dec/2022 – Dec/2023

- Technical leadership in projects using React.js and external API integrations
- Developed responsive interfaces with high usability standards
- Contributed to back-end development using Node.js
- Delivered key contributions across four major company projects

🧠 Technical Skills

- **Languages & Back-End Frameworks:** Java (Spring Boot), .NET 8 (C#), Node.js, NestJS
- **Front-End Technologies:** React.js, Vue.js (Quasar), Tailwind CSS
- **Mobile Development:** React Native, Kotlin, Java (Android)
- **Databases:** SQL Server, PostgreSQL
- **Architecture & Cloud:** Microservices, REST APIs, RabbitMQ, Azure, AWS (basic), Docker, CI/CD
- **Tools & DevOps:** Git, GitHub Actions
- **Integrations:** Financial APIs and POS systems (VERO, Mercado Livre)

📒 Certification

Foundational C# – Microsoft FreeCodeCamp

- Professional Front-End Developer – Meta (Facebook)
- Java Explore – Oracle
- React Native Expert – Meta (Facebook)
- Android Developer Professional Certificate – Meta (Facebook
